Tatiha Organics - Terrace Garden Planning Checklist

Essential pre-installation checklist for residential rooftop gardens.

[ ] 1. Structural assessment of roof slab and load-bearing capacity verified.
[ ] 2. Waterproofing membrane checked for micro-cracks and drainage slope.
[ ] 3. High-density drainage cells and geotextile filtration layers installed.
[ ] 4. Water supply and pressure verified for automated drip irrigation lines.
[ ] 5. Lightweight potting mix formulated (cocopeat + vermicompost + red soil).
[ ] 6. Planters elevated on drainage trays to allow free floor water runoff.
[ ] 7. Green shade net (50%) planned for intense Central Indian summer heat.
